April 1, 2017
Dear global CE-HTM colleagues on the IFMBE CE Division Directory:

We are inviting you to a one-time free webinar from ACCE, for members and non-members, locally and globally. Please join us and pass this on to your friends and colleagues in your country and beyond.

Antonio and I are inviting all CE and HTM (US and) global colleagues to join us that day. Why? ... not because we’re great (well Antonio is …), but we think this is timely and important material.

Note the registration form below in ACCE Secretariat Suly Chi’s e-blast. Here is the link to sign up. https://www.surveymonkey.com/r/ACCEwebinar.

Even if you cannot attend on Thursday, April 13, from 12 noon - 1 pm New York time, if you sign up, you will receive afterwards the presentation and a link to the recording.

For example, Antonio and Mario Castañeda just returned from a CE-HTM regional meeting in Medellin, Colombia, where they observed CE Millennials leading the profession in very innovative ways through Social Media tools, a model worth emulating everywhere.

Imagine being in contact with selected colleagues all over your country and region daily in ways that you choose to get timely answers and input on challenging professional questions you deal with every day.

Even if you have already "emerged" as a CE-HTM leader, we want you. Perhaps you have already experienced 'Success' in your career and also now want 'Significance'.

Either way, we want you to join.

Thanks. Tom Judd, on behalf of Antonio Hernandez and myself

**Register today for April 13th's session:**

**Title:** Global Health Technology Equity: How Emerging CE-HTM Leaders Can Help?
**Date:** April 13, 2017 (Thursday)
**Time:** 12:00 PM - 1:00 PM (Eastern Time)
Description: This session will explore Global Health trends, current advances, and gaps in our vision of equity, accessibility, affordability, acceptability and availability of Healthcare Technology and its possible impact worldwide. Also, it will address the challenges and opportunities to contribute to equity in global health initiatives, particularly from younger, emerging CE-HTM leaders locally and globally.

Speakers:
Antonio Hernandez, EE, PE, Board Director of GHIA

Thomas Judd, MS CCE FACCE FHIMSS, Secretary of IFMBE/CED

Moderator: Jennifer Boudreaux

Registration Required: registration form

About the Presenters

Antonio Hernandez, EE PE is a founding member and Board of Directors member of GHIA - Global Health International Advisors. He is retired from the Pan American Health Organization / World Health Organization (PAHO/WHO) as Senior Advisor on Health Services Physical Infrastructure and Technology after 29+ years of service. He has more than 40 years of experience in the health technology (HT) field and has long served as Chair of the ACCE International Committee and an At-Large Board Member.

Tom Judd, MS CCE FACCE FHIMSS is the Secretary of the International Federation of Medical and Biological Engineering / Clinical Engineering Division (IFMBE/CED), our global CE society. He retired from Kaiser Permanente (KP) after serving 25 years in 2016, half as National Project Director, Clinical Technology, and the other as KP Georgia Quality & Patient Safety Director. Overall, he also 40+ years in HT, with a particular focus on global CE. With ACCE colleagues, he began the Advanced Clinical Engineering Workshops (ACEWs) in 1991, where CEs and health leaders from over 90 countries have now been trained in CE-HTM best practices.
